

Data description:

Six variables were measured on 100 genuine and 100 counterfeit old Swiss 1000-franc bank notes. The data stem from Flury and Riedwyl (1988). The columns correspond to the following 6 variables.

$X_1$ : length of the bank note

$X_2$ : height of the bank note, measured on the left

$X_3$ : height of the bank note, measured on the right

$X_4$ : distance of the inner frame to the lower border

$X_5$ : distance of the inner frame to the upper border

$X_6$ : length of the diagonal

Observations 1–100 are the genuine bank notes and the other 100 observations are the counterfeit bank notes.
